WARNING

This document contains classified information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive TALENT-KEYHOLE information. Its security must be maintained in accordance with KEYHOLE and TALENT regulations.

NATIONAL PHOTOGRAPHIC INTERPRETATION CENTER

TOP SECRET

PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1A Pabrade Army Barracks, located on the
25X1A western outskirts of Pabrade, may provide ad-
ministrative and logistical support for Pabrade
Army Training Area Northeast [REDACTED]
[REDACTED] which is located approximately 4 kilo-
meters (km) northeast.

The barracks area (Figure 1) covers ap-
proximately 100 acres and includes 4 barracks, 6
administration buildings, 19 storage buildings, 1
probable vehicle maintenance/storage building,
and 9 support buildings (Figures 2 and 3).

25X1D [REDACTED] missions of interpretable quality,

covering the period [REDACTED]
[REDACTED] were used in preparation of this report.
Comparison reveals a relatively constant level
of activity during the summer and very limited
activity during the winter. No significant changes
have been observed during the period covered by
the photography.

The small number of barracks and the large
number of storage buildings indicate that the pri-
mary function of this installation may be storage
and/or support of the training area.

DESCRIPTION OF INSTALLATION

Railroad Service

The double track Vilnyus-Svencioneliai
railroad serves the storage area of this installa-
tion.

Road Service

The main road which serves Pabrade also
serves this installation.

Aircraft Landing Strip

Pabrade Airfield, a graded-earth airfield, is
located 10 km northeast of the barracks.

Administrative and Troop Housing Area

Area D contains 4 barracks, 6 administra-
tion buildings, 8 storage buildings, one 220- by

40-foot probable vehicle maintenance/storage
building, and 8 small support buildings.

General Storage Area

Area E is secured and contains 11 small
storage buildings on the south side of a stream
which runs through the area. A bridge across
the stream connects this storage area with the
barracks area.

Flat-Trajectory Firing Range

Area P contains a 2,200-foot flat-trajectory
firing range with a stationary target. The direc-
tion of fire on this range is probably northwest
into the wooded area. One building provides sup-
port for this range.
